

# Visio 2010 Templates

When you need to create a new diagram, it’s enormously helpful to have a starting place. Microsoft Visio 2010 templates typically provide that starting place by including a drawing page with suitable dimensions and drawing scale (where appropriate), along with a collection of relevant shapes. A template may also include predesigned data graphics, page backgrounds, and other design elements.

Visio Standard 2010 includes 24 diagram templates in six categories. The Professional edition includes 62 templates in eight categories, and the Premium edition raises the total number of templates to 65.

The following table lists all Visio 2010 templates, arranged alphabetically within their template categories. If you need to create a diagram for any purpose, locate a relevant template category in the leftmost column, check the Template Name column to see whether there is a relevant-sounding template, and then use the right side of the table to determine whether your edition of Visio includes the required template.

Template names are arranged alphabetically within each template category.

Template category	Template name	Standard	Professional	Premium
Business		X	X	X
	Audit Diagram	X	X	X
	Brainstorming Diagram	X	X	X
	Cause and Effect Diagram	X	X	X
	Charts and Graphs	X	X	X
	EPC Diagram	X	X	X
	Fault Tree Analysis Diagram	X	X	X
	ITIL Diagram		X	X
	Marketing Charts and Diagrams	X	X	X
	Organization Chart	X	X	X
	Organization Chart Wizard	X	X	X
	Pivot Diagram		X	X
	Six Sigma Diagram			X
	TQM Diagram	X	X	X
	Value Stream Map		X	X
