

Rate Applications

Rating content you have purchased on Google Play Store helps others make educated decisions about their purchases. The Google Play Store uses a five-star rating system to rate all content. Much of the content on the Google Play Store features reviews that you can read to see how others like the product.

1. Tap Play Store on the Home screen.
2. Tap the Menu icon.
3. Tap My Apps.

4. Tap the app that you want to rate.
5. Swipe down the screen until you see the Rate This App section and then tap a rating star on a scale from one to five. For example, if you tap the second star from the right, the first four stars from left to right are highlighted in blue, which signifies that you give the app four stars on a five-star scale.
6. Tap OK if you see a window with information about Google Play reviews using Google+ (not shown).
7. Tap the rating star again as you did in step 5.
8. Enter a title for your review in the Title field.
9. Enter your comments in the Description field.
10. Tap Submit.
