

Use the LinkedIn Pulse RSS Reader

If part of your daily routine includes reading news websites and blogs, adding an RSS reader can help you manage your news sources from one app in the form of feeds instead of visiting multiple websites. LinkedIn Pulse is a free RSS feed reader that you can download from the Google Play Store; it enables you to acquire and manage multiple news feeds as an interactive mosaic. The following steps presume you have already downloaded the LinkedIn Pulse app from the Google Play Store.

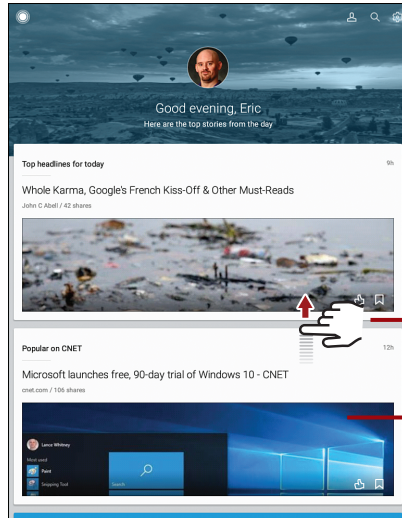

1. Tap Pulse on the Home screen.
2. Tap Sign In to LinkedIn.
3. If you don't have a LinkedIn account, tap Join Now. This example presumes you already have a LinkedIn account.
4. Type your LinkedIn username and password in the Email and Password fields.
5. Tap Sign In.

6. The Pulse home screen contains a list of individual story tiles that contain the day's top stories. The list is ordered from the most recent story that appears at the top of the list to the oldest top story at the bottom of the list. Swipe up on the screen to view the rest of the story tiles to read older stories.
7. Tap a story tile to open it. The story opens on the screen.

Refreshing Automatically

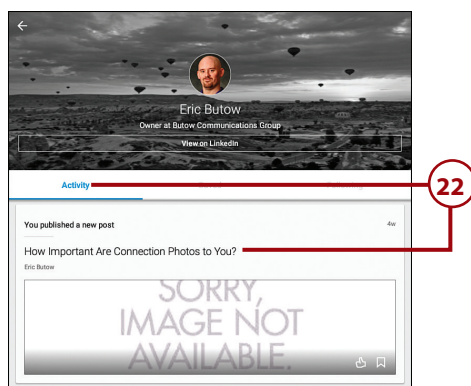

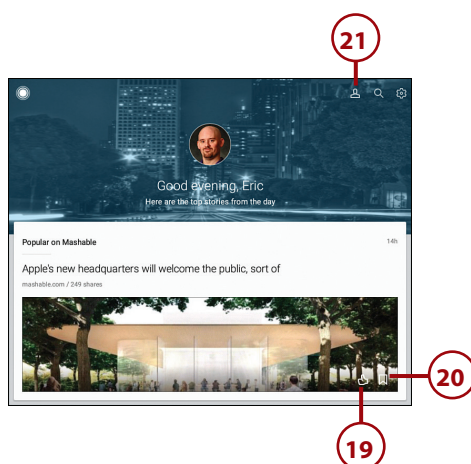

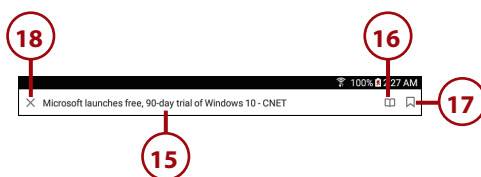

You can choose an automatic refresh option by tapping the Pulse icon on the menu bar at the top of the screen. Pulse automatically refreshes the top stories feed and displays the most recent story tiles on the screen.

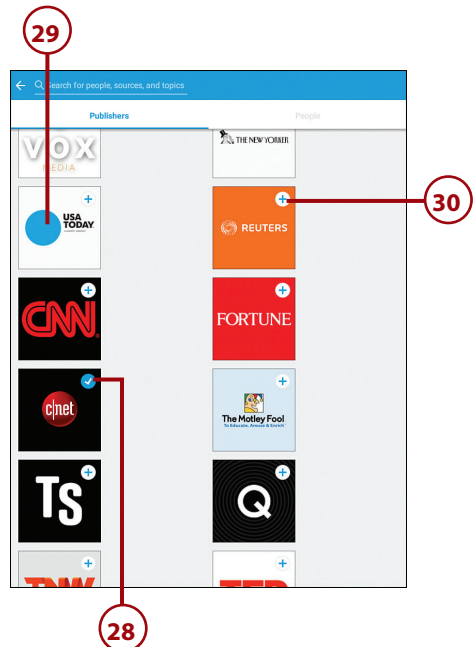

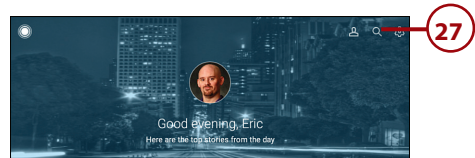

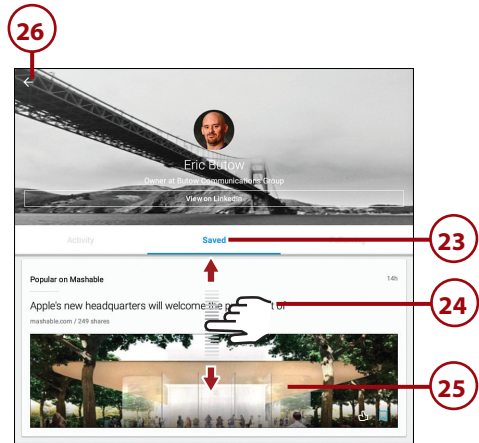

8. At the left side of the menu bar at the bottom of the screen, you see the number of likes the article has received as well as the number of times Pulse users have shared the story with others.
9. Tap to like the article and share that with the website that contains the article and on your LinkedIn profile. The number of likes already posted appears to the right of the icon.
10. Tap to share the article in an email message using the Email or Gmail app, copy to an S Note or Memo file, add to the Scrapbook app, copy to a OneNote document, share in a Hangouts or Skype chat, copy to a Google+ post, save to a OneDrive or Google Drive file, or transmit to another device directly using Wi-Fi Connect or Samsung Quick Connect.
11. Tap to view more options in a pop-up menu.
12. Tap Open in Browser to open the article in the Internet or Chrome browser app.
13. Tap Copy Article Link to copy the article link to the Clipboard for pasting in another app such as a Word document.
14. Tap Report This to report the article to LinkedIn as a possible violation of its standards. For example, you can report the article violates the copyright of another published article.

15. The menu bar at the top of the screen contains the name of the article and the article source.
16. By default, the article appears in Web mode, which means the article appears on the screen as it does in the article source's website. Tap the Reading Mode icon to view the article in Read mode, which displays the article in plain text with smaller graphics and text links. Return to reading the article in Web mode by tapping the Reading Mode icon again.
17. Tap the Bookmark icon to save the article as a favorite.
18. Close the article and return to the Pulse home screen by tapping the Close icon.
19. Within an article tile, tap the thumbs-up icon to like the article and share that with the website that contains the article and on your LinkedIn profile.
20. Tap the Bookmark icon to save the article as a favorite.
21. Tap the Account icon to open information about your account.
22. By default, the Activity tab shows all recent activity within your LinkedIn account, such as a post you published.

23. Tap the Saved tab to view a list of your saved articles.
24. Swipe up and down within the list if necessary to view all your saved articles.
25. Read the article on the screen by tapping the article tile.
26. Return to the Pulse home screen by tapping the Back icon.
27. Search for people, article sources, and article topics by tapping the Search icon.
28. Within the Publishers tab, swipe up and down in the list to view all available sources for news and information. Sources that Pulse already checks for articles to add to your news feed contain a blue circle with a white check mark in the upper-right corner of the tile.
29. Tap the publisher tile to view all recent stories from that publisher on the screen.
30. Require Pulse to scan for articles from a publisher to add to your news feed by tapping the Add icon in the upper-right corner of the tile.

31. Tap the People tab to view business leaders on LinkedIn you want to follow.
32. Swipe up and down in the list to view all business leaders who provide LinkedIn updates, such as articles that person has shared, that you can add to your Pulse news feed.
33. Tap the person's tile to see his or her current LinkedIn activity.
34. Require Pulse to add LinkedIn updates from a person, such as a published article, by tapping the Add icon in the upper-right corner of the person tile.
35. Tap the Search field to type your search term(s), such as a publisher name.
36. Return to the Pulse home screen by tapping the Back icon.
37. Tap the Settings icon to view and change how Pulse notifies you of new stories, the types of stories you want Pulse to notify you about, read online help about using Pulse, send feedback about Pulse, and get information about the app.
